

JLINE

ABOUT

In the past few years, his music has garnered over 500k streams (with over 500 music playlist additions) and close to 1 million Youtube views.

With a synth electro-pop sound that mirrors the brightness of the late 80's/early 90s, J-LINE makes the underground music scene feel alive again - with an electrifying twist.

As a touring artist, his "dirty pop party" concert series has traveled the US, celebrating local indie pop artists that are often overlooked and underrepresented. From Atlanta to Denver, J-LINE's unmatched talent onstage has garnered him an unparalleled following of music lovers and dance enthusiasts.
